

Product Data Sheet

Product Name: **Elite Graffiti Remover**

Description/Uses: Elite Graffiti Remover is an easy to use liquid graffiti remover with deep penetration and fast acting power. It is recommended for the removal of graffiti from masonry, brick, concrete, stone, mild steel, stainless steel surfaces, painted surfaces, and wood surfaces.

(Note: Do not use this product on plastic, galvanized, or non-ferrous metal surfaces).

Surface Preparation: The surface does not have to be clean to remove the graffiti. If the wall is seriously covered with dirt and other substances pressure wash the dirt and other substances from the wall before removing the graffiti.

Higher pressure and temperature will improve performance. Elite Graffiti Remover may be used on most surfaces for graffiti removal, however, it is highly recommended to test a small area of any surface first.

Application Information

Method: Use product full strength, do not dilute. Pour the needed amount of Elite Graffiti Remover into a polypropylene or a metal container. Elite Graffiti Remover can be applied to any surface using a roller or a paint brush. After applying Elite Graffiti Remover to the surface agitate graffiti with a stiff broom or brush. Pressure rinse the graffiti with 2200 PSI 90 seconds after application.

Painted Surface: Before putting the Elite Graffiti Remover on the affected area always wet down the surface with water. After wetting down the surface apply the Elite Graffiti Remover to the graffiti and pressure rinse the graffiti away. Always test a small area before applying the product to the entire affected area.

Specifications

Coverage Rate: Up to 50 – 100 Square Ft/gallon depending upon graffiti area, surface porosity, surface texture, and method of application.

DOT Shipping Class: Packaging group II

Hazardous Class: 8 corrosive and 3 flammable

Freight Class: 65

UN NO: 2920

Shelf Life: 2 years

Storage: Refer to section 7 in the MSDS (Material Safety Data Sheet)

Safety Information

Safety Directions: Always wear protective goggles, clothes, and chemical resistant gloves when using Elite Graffiti Remover. Elite Graffiti Remover may produce severe burns. Do not breathe vapors. Elite Graffiti Remover is extremely flammable.

First Aid: If there is an emergency contact a doctor and/or call 911 for emergency assistance. If swallowed, do not induce vomiting. If Elite Graffiti Remover gets in the eyes, hold eyelids apart and flush eyes continuously with running water for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

Emergency Procedure

Spills/Leaks: Cover with inert absorbent (sand, earth, vermiculite, etc.) and transfer to container for safe disposal.

Fire: Use water fog or fine water spray. Emergency workers should wear full protective clothing including goggles, breathing apparatus and chemical resistant gloves. Prevent spillage from entering natural waters. Additional information is listed in the MSDS (Material Safety Data Sheet).
