

## Product Data Sheet

Product Name: **Sign Safe Graffiti Remover**

Description/Uses: Sign Safe Graffiti Remover is a fast acting liquid graffiti remover. It is recommended for the removal of graffiti from metal signage, rail signs, and all traffic signage.

(Note: Use caution when using Sign Safe Graffiti Remover on reflective surfaces as the Sign Safe Graffiti Remover may dull the surface).

Surface Preparation: Wash the surface with water prior to applying the Sign Safe Graffiti Remover to the surface.

### Application Information

Method: Use product full strength, do not dilute. Wet down the surface with water, then apply Sign Safe Graffiti Remover to the affected area with a rag or spraying. Allow the product to penetrate the surface for 30 seconds and then agitate with a cloth. Wipe off with a clean cloth and wash down with water.

### Specifications

Coverage Rate: Up to 50-100 Square Ft/Quart depending upon graffiti area, surface porosity, surface texture, and method of application.

DOT Shipping Class: N/A

Hazardous Class: N/A

Freight Class: 65

UN NO: N/A

Shelf Life: 2 years

Storage: Refer to section 7 in the MSDS (Material Safety Data Sheet).

## **Safety Information**

Safety Directions: Always wear protective goggles, clothes, and chemical resistant gloves when using Sign Safe Graffiti Remover. Sign Safe Graffiti Remover may produce severe burns. Do not breathe vapors. Sign Safe Graffiti Remover is flammable.

First Aid: If there is an emergency contact a doctor and/or call 911 for emergency assistance. If swallowed, do not induce vomiting. If Sign Safe Graffiti Remover gets in the eyes, hold eyelids apart and flush eyes continuously with running water for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

### Emergency Procedure

Spills/Leaks: Cover with inert absorbent (sand, earth, vermiculite, etc.) and transfer to container for safe disposal.

Fire: Use water fog or fine water spray. Emergency workers should wear full protective clothing including goggles, breathing apparatus and chemical resistant gloves. Prevent spillage from entering natural waters. Additional information is listed in the MSDS (Material Safety Data Sheet).
